Ownership of Nursing Facility

## Nursing Facility Facts

- Resident needs are complex and they are in need of 24-hour nursing care.
- Almost two-thirds of residents are admitted after a hospital stay (62%).
- The most significant issue necessitating admission to a nursing facility is the need for care throughout the day. Residents are unable to meet their own needs for dressing, toileting, eating, and remaining safe. Most often their medical needs are complex, requiring continuous attention.
- Current residents range in age from 13 months to 114 years old, with the average age being 86.5.
- Seventy of the eighty reporting facilities discharge 6318 residents in the 12-months period ending June 30, 2018.
- According to CMS data, in 2018 ND nursing facilities had the second highest percentage of residents age 95 and older, 8.74% of all residents compared to the US average of 5.15%. ND nursing facilities hold the highest record for the 85-94 age group at 45.8%, compared to the US average of 31.3%.
