

MEASURE 4

End Unfair Property Tax is the campaign behind the initiated ballot measure.

In summary, the initiated ballot measure states:

- Political subdivisions may not raise revenue through levying any tax on assessed value of real or personal property.
- Political subdivisions may continue to levy tax if the tax was dedicated for the payment of bonded indebtedness.
- The State shall provide annual property tax revenue replacement payments to political subdivisions in an amount equal to what was levied in 2024.

Health Care Coalition Members:

Community HealthCare Association of the Dakotas

Keep it Local is a statewide coalition **against** Measure 4 which seeks to abolish property tax in North Dakota. The coalition is an ideologically broad group with a central goal of maintaining local control and keeping our communities great places to live.

Health Care Impacts:

REDUCED ACCESS TO HEALTH CARE SERVICES:

State budgeting changes to backfill property taxes may lead to cuts to the ND Dept. of Health and Human Services budget (the largest in the state) and reimbursements to health care providers in the current system, **decreasing access to healthcare services for patients and their families.**

SOCIAL DETERMINANTS OF HEALTH: Community partners that provide critically important services to support well-being –public health, public transportation, social services – **may all be negatively impacted and forced to reduce community services.**

WORKFORCE: The essential local services that property taxes fund will be threatened, **decreasing quality of life in our communities**, negatively impacting our ability to recruit and retain workforce throughout the state.

The constitutional measure to eliminate property taxes may sound good but would have devastating effects on North Dakota communities.
